Hands-On Labs Policy. By registering for a Hands-On Lab, Registrant acknowledges and agrees that some labs involve working with live animals, cadavers, specimens, equipment and other unique learning materials which may expose the registrant to a risk of injury or disease in the same manner as a veterinary professional would be exposed to these risks in carrying out the same or similar procedures in a clinical setting. The registrant, by registering for these Hands-On Labs and completing this registration form, agrees to assume this risk and hereby waives and releases the OVMA, any faculty, and other participants from any and all damage or injury arising out of or related to registrant's participation in the Hands-On Lab.

Consent to be Photographed. Registration for the Midwest Veterinary Conference and attendance at any events, educational sessions and/or wet labs held in conjunction with the MVC constitutes an agreement by the registrant to OVMA's use and distribution of his/her image or voice in photographs, videotapes, electronic reproductions and audiotapes of such events and activities.

Shared Content. The OVMA may use content you share in relation to the MVC in future promotional materials, including but not limited to social media posts, photos, and comments.

Privacy Disclosure. The OVMA will not release your contact information to non-exhibiting companies. Please be aware that the contact information you provide will be encoded into your attendee badge and/or virtual attendee profile and may be obtained by Exhibitors.

Virtual Platform Access. Only registered attendees are permitted to access the MVC Virtual Platform and claim/be verified for continuing education (CE) credit. Each access code is limited to one simultaneous device sign-in. Registrants agree they will not share, distribute, record, or sell their individual access code, speaker videos, and/or conference proceedings to unregistered individuals or companies. OVMA is not responsible for attendee technology and/or equipment failures that prevent access to the Virtual Platform.
